

# DJ Skirts Mobile ProBooth

\*Table not included

## Description:

- 3-sided "pipe and drape" booth/façade provides a designated work space area with a professional appearance. **Multi-sized** and may be set up as 8-foot, 6-foot, or 4-foot wide.

## Stock Size(s):

- Adjustable Multi-size

## Color:

- Black

## Set-up Time:

- Under 4-minutes (3:20)

## Read More:

- Equipment, electrical cords, cables, valuables, tickets, money, beverages, note papers, etc. are tastefully hidden from view
- Helps keep people from having access to items on your table and work area
- The height is 4-feet (18-inches above a standard folding table) – a nice height to easily see over
- Standard 4-foot, 6-foot, and 8-foot folding tables fit snugly within
- Each of the three setup sizes use all pipes provided. Different configurations enable size variances. 8-foot front has 27 inch sides. The 6-foot front has one 27 inch side and one 4-foot side. The 4-foot front has 4-foot sides. This enables the entire fabric cover to be used on every size, with no excess material.
- An alternative 4-foot setup can be configured using two 27-inch sides, with a 4-foot front, but requires excess material from one side to be tucked or wrapped on the inside rear
- Fast and easy set up, tear down, and transport (designed for people "in a hurry").
- Quick-connect pipe frame is strong and stable (will withstand people leaning their elbows on it)
- Fabric goes on like a mitten - over the pipe frame and completely hides all piping front and back
- Fabric lays flat and taut. As an option, use the attached straps which wraps around the bottom pole, and through a D-ring with Velcro style

fastening to "Tighten it up". You may choose to skip this step to save time.

- Total blackout material - objects are well hidden from view
- Fire retardant
- For easy tear down, fabric may be folded or rolled up until next use
- Free carry bag included and measures 49 inches x 18 inches x 7-inches
- Weight is just 24 pounds in the bag

### **Material Specs:**

- Industrial gloss plastic piping
- This piping type is also used for hockey goals, soccer goals, and patio furniture
- Lightweight, strong pipe is 1/3 the weight of aluminum

### **Fabric Information:**

- Wrinkle resistant
- Various polyester materials
- Wash in warm water gentle cycle, tumble dry on low heat
- Passes NFPA 701 (FIRE CODE TEST)
- *More info at [DJSkirts.com](http://DJSkirts.com) nav menu under "Fabric Information"*
